INDOOR LED SCREEN

Indoor LED screens are high-resolution displays that use small light-emitting diodes (LEDs) to create images, text, and videos, optimized for indoor environments with controlled lighting. Key features include smaller pixel pitches for sharp, clear visuals at close distances, high brightness and contrast for vivid colors, seamless modular construction, thin designs for easy installation, and customizable sizes. They are used in diverse settings like shopping malls, corporate offices, and conference rooms to enhance branding, presentations, and dynamic content displays.

INDOOR LED SCREENS

VERY SMALL PIXEL PITCH (P0.9 – P2.5), ULTRA-HIGH RESOLUTION (VERY SHARP)

CONTROL ROOMS, TV STUDIOS, CORPORATE BOARDROOMS

OUTDOOR LED SCREEN

Outdoor LED Screens are high-brightness digital displays designed for open-air environments. They deliver clear visuals even in direct sunlight and are built to withstand rain, dust, and extreme weather. With wide viewing angles, high refresh rates, and customizable sizes, they are ideal for advertising billboards, stadiums, events, and public displays. Outdoor LED screens ensure maximum visibility, durability, and impact, making them one of the most effective modern communication and marketing tools.

INSTALLED ON POLES, STREETLIGHTS, MOUNTED ON BUILDINGS 

We are a leading provider of LED display solutions, offering manufacturing, supply, and installation of both rental and fixed LED screens across India and the UAE. We deliver high-quality, reliable, and customized digital display solutions for events, advertising, and commercial applications.

RENTAL LED SCREEN

Rental LED Screens are flexible, high-definition display panels designed for temporary use at events and functions. They feature lightweight, modular cabinets that make them easy to install, dismantle, and transport. With high brightness, wide viewing angles, and superior refresh rates, rental LED screens deliver crystal-clear visuals both indoors and outdoors. They are widely used in concerts, weddings, corporate events, exhibitions, trade shows, sports, and festivals, offering a cost-effective and impactful solution for live visuals, advertisements, and presentations without the need for permanent installation.
